

TERPENES: THE SCENTS THAT SHAPE YOUR EXPERIENCE

Terpenes are the natural aromas and flavours found in all plants — including cannabis. They don't just smell good — they also influence how a strain might make you feel.

Terpene	Common Scent	What It's Known For	Found In
Limonene 🍊	Citrus (lemon, orange)	Uplifting • Stress relief	Citrus rinds, rosemary
Linalool 🌸	Floral (lavender)	Calming • Relaxing	Lavender, mint, basil
Pinene 🌲	Pine, forest	Focus • Alertness	Pine needles, herbs
Myrcene 🌿	Earthy, musky	Relaxing • Sedating	Mango, lemongrass, thyme
β-Caryophyllene 🌶️	Peppery, woody	Comfort • Anti-inflammatory	Black pepper, cloves, basil

This is only 5 terpenes of many — more terpene content coming soon.

Quick Tip: When choosing cannabis, follow your nose — aroma often points to how a product might make you feel.

The scent tells the story — the nose knows.
